- Net Weight: 4 lbs (1.8 kg)  
4 x 4 lbs (7.27 kg)

# CHLOROBURST™

Iron, Manganese & Zinc Supplement

## GENERAL USE GUIDE

|                            |   |
|----------------------------|---|
| <b>Root Injection</b>      | <p>Add 3 oz (1/2 dry measurement cup) of Chloroburst per inch diameter at breast height (DBH) of tree or shrub.</p> <p><b>Equipment:</b> Standard hydraulic sprayer with either mechanical agitation or high pressure, jet agitation such as a venturi nozzle. Use a standard root feeder probe or spray gun and soil injection needle with at least 4 lateral ports.</p> <p><b>Operating Pressure:</b> 150 to 200 PSI or 1/2 gal per 4 seconds.</p> <p><b>TREES:</b> 25 to 50 gal of liquid suspension per 1,000 sq ft of soil to be treated. Apply 1.0 to 2.0 qt of suspension per injection of spacing of 3 ft between injections in a grid under the entire tree canopy. Inject at a depth beginning at 4 in below the surface through a depth of 12 in maximum.</p> <p><b>SHRUBS, VINES &amp; BERRIES:</b> Apply 1.0 to 2.0 pt of suspension per injection on a spacing of 2 ft between injections. Inject at a depth of 4 to 6 in. (For small shrubbery, drench soil using standard spray gun with disc removed. Apply 1/4 gal per 5 sq ft of root area.)</p> |
| <b>Soil Drench</b>         | <p><b>PERENNIALS, ANNUALS &amp; SHRUBS:</b> Add 1.50 oz per gal and follow rates listed above. Apply directly to soil and water in to ensure the product gets to the root zone of the plant. One application per year should be sufficient to reverse chlorosis and maintain green foliage.</p>   |
| <b>General Application</b> | <p>Add 1-2 lbs per 100 gallons for applications where an Fe, Mn, Zn supplement is desired, but the trees and plants are not showing a deficiency.</p>   |
| <b>Turf Application</b>    | <p><b>TURFGRASS:</b> Spray 4 to 12 oz per 1,000 sq ft in sufficient amount of water to apply in an even fashion. Irrigate after spraying to ensure movement into the root zone.</p>   |

### KEEP OUT OF REACH OF CHILDREN AND STORE MATERIALS IN CLEARLY MARKED CONTAINERS

Do not store in temperatures below 40°F.
