

AERATION RECOVERY WARM SEASON

Your golfers will thank you!

Treat your aerated turf with a complete foliar program, including natural plant extracts and active L-amino acids. Give your turf the necessary advantage for rapid recovery.

This warm season turf program results in more rapid closure of core cultivation holes, improved turf recovery and higher quality turf. With the use of this program, nitrogen applications for the purpose of aeration recovery can be considerably reduced.

Apply this program 3 days prior to aeration and again 7 days after aeration.

Foliar-Pak® 14-2-4 This high-performance macro-nutrient fertilizer supplements plant metabolic activity and provides nutrition for color and proper tissue development while amino acids increase the production of anti-stress compounds.

Rate:
3 to 6 oz
per 1000 sq ft

Foliar-Pak® Micros Plus Improves lateral growth of stolons, rhizomes and enhances foliar recovery. Micros Plus improves cell division, nutrient use, photosynthetic properties and helps turf maintain healthy green color.

Rate:
3 oz
per 1000 sq ft

Foliar-Pak® Armament® P 3-12-2 Phosphorus is essential for protein synthesis, cell division, and the development of new tissue. Armament P increases phosphorus availability by preventing common soil nutrient interactions that tie up phosphorus.

Rate:
3 oz
per 1000 sq ft

Foliar-Pak® Colonise Bio Colonise Bio is a highly specific blend of live biology, carbon sources and nutrient enhancers. Colonise Bio contains Armament, AminoPrecise and Colonise technologies to target better rooting, nutrient uptake, plant resilience and turf playability.

Rate:
3 oz
per 1000 sq ft

Optional Additions:

Foliar-Pak® Armament® K 0-0-24 protected by Armament®

3 oz per 1000 sq ft
