

FALL FOLIAR COOL SEASON

Foliar-Pak® Foundation Forty A highly concentrated blend of specific amino acids to increase plant energy, build proteins, and improve carbohydrate storage. Improves plant metabolism, especially photosynthesis, and enhances the uptake of other nutrients and spray tank additions.

Rate:
1 oz
per 1000 sq ft

Foliar-Pak® 1-0-15 Unsurpassed foliar availability of potassium for proper plant water relations and cell turgor pressure. Allows the plant to respond optimally to salt, drought, and winter stresses.

Rate:
3 to 6 oz
per 1000 sq ft

Foliar-Pak® Amperage A blend of Fe, Mn and Zn complexed with low molecular weight amino acids that increase plant uptake. Sugars from natural molasses energize plants with simple carbohydrates that supplement the plant especially under low sunlight and cooler conditions.

Rate:
3 oz
per 1000 sq ft

Foliar-Pak® Calcium Calcium strengthens cell walls and cuticles for better cold temperature and traffic stress tolerance. Focused amino acid package increases photosynthetic efficiency, prolongs the life of chloroplasts, and produces anti-stress compounds. A physically stronger plant will handle the pitfalls of fall weather and traffic more effectively.

Rate:
2 to 3 oz
per 1000 sq ft
