

Bio Sea S

0.5-0-2

Foliar-Pak® Bio Sea S is an *Ascophyllum nodosum* liquid seaweed extract harvested from the coast of Norway. The cold process extraction method used in this unique product preserves the integrity of the natural ingredients, amino acids, organic acids, sugars and plant extracts.

PRODUCT DESCRIPTION/BENEFITS

- Foliar-Pak Bio Sea S is an *Ascophyllum nodosum* liquid seaweed extract harvested from the coast of Norway. The cold process extraction method used in this unique product preserves the integrity of the natural ingredients, amino acids, organic acids, sugars and plant extracts.
- Bio Sea S is more effective because the plant derived ingredients are more structurally complete, therefore, they remain more bio-active than other fertilizers.
- Natural betaines and organic acids regulate at the cellular level to ensure the plant is protected from stress.
- This rich source of natural plant extracts works to enhance new root growth, new shoot growth, and photosynthesis while delaying chlorophyll degradation.

GUARANTEED ANALYSIS

Total Nitrogen (N) 0.5%
 0.5% Water Soluble Nitrogen
 Soluble Potash (K₂O)..... 2.1%

Derived from: soy protein hydrolysate, seaweed extract
 (*Ascophyllum nodosum*)

NON PLANT FOOD INGREDIENTS

Cold Process Seaweed 12%

GENERAL USE GUIDE

A concentrated seaweed solution used to assist turf and plants during stressful conditions. This product is tank-mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations, a compatibility test is recommended.

Golf Course Greens, Tees and Fairways	Apply 0.5 to 2.0 fl oz per 1,000 sq ft in enough water to provide sufficient foliar coverage. Repeat application every 7 to 14 days.
Bedding Plants Hanging Baskets	Apply 0.5 to 2.0 fl oz per gallon, and drench 1 gallon of finished solution per 20 sq ft of planted area. Do not treat general bed space. Treat each annual plant as if it covers 1 sq ft.
Shrubs and Trees	Apply 0.5 to 2.0 fl oz per gallon, and drench 1 gallon of finished solution per 1" diameter of tree or shrub. In areas where turf is present, inject the solution into the soil.
