**PRODUCT DESCRIPTION/BENEFITS**

Foliar-Pak Calcium is a newly formulated fertilizer that increases turf growth by offering the following advantages:

- Focused amino acid package increases photosynthetic efficiency, and prolongs life of chloroplasts.
- Multiple complexors and chelators provide a dramatic increase in uptake efficiencies.

**Triple Protected Calcium**

Foliar-Pak Calcium is a brand new formulation using three natural and modified plant metabolites specific for protecting calcium.

Each plant metabolite performs well in its own niche. The low-molecular-weight plant metabolites allow for movement through the stomatal pores and transcuticular pores; the high-molecular weight modified plant metabolite chelates the calcium for secondary uptake via the soil. This engineered redundancy ensures rapid uptake and longer nutrient availability in all growing conditions.

Derived from: calcium nitrate, soy protein hydrolysate

**PRODUCT INFORMATION:**

- **Weight per Gallon:** 10.6 lbs (4.8 kg)
- **pH:** 6.0

**GENERIC USE GUIDE**

This product is tank mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations a compatibility test is recommended.

- **Golf Course Greens**
  - Apply 1.5 to 6.0 fl oz per 1000 sq ft in enough water to provide sufficient foliar coverage.
  - Repeat application every 7 to 14 days.
  - Warm season turf may require more frequent applications.

- **Golf Course Tees and Fairways, Athletic Fields**
  - Apply 1.5 to 6.0 fl oz per 1000 sq ft in 0.5 to 2.0 gal spray solution per 1000 sq ft.
  - Repeat application every 14 to 28 days.

- **Commercial and Residential Lawns**
  - Apply 1.5 to 6.0 fl oz per 1000 sq ft in 0.5 to 2.0 gal spray solution per 1000 sq ft.
  - Repeat application every 3 to 6 weeks.
