

Micros Plus

2-0-0

Foliar-Pak® Micros Plus provides foliar delivery of key nutrients that promote improvement for overall plant growth.

PRODUCT DESCRIPTION/BENEFITS

- Foliar-Pak Micros Plus enhances density, rooting, and recovery. Great for use on transitions and turf establishment.
- Foliar-Pak Micros Plus targets cell division, chlorophyll formation, increased nutrient mobility and utilization, while improving metabolism of carbohydrates and nitrogen.
- At low use rates, this bio-based formulation can be used as a valuable source of readily available micronutrients and plant extracts.
- Foliar-Pak Micros Plus can be tank mixed with Foliar-Pak Promote or Foliar-Pak Bio Sea for greater biological enhancement and more balanced turf recovery.

GENERAL USE GUIDE

Prior field use of this product indicates that care should be taken to ensure correct rates and culture practices are in place. Product may decrease turf regulator response if used improperly. Read the label carefully and consult your distributor sales representative before applying this product on creeping bentgrass. Shake well. Maintain agitation during mixing and application.
