Foliar·Pak®

SPRING PERFORMANCE (Cool Season)

A high performance foliar program to enhance turf color, improve rooting, and increase carbohydrates is necessary to endure early spring's temperature and sunlight variability. This program will enhance turf repair from winter damage and prepare it for summer stresses.

Foliar-Pak® Foundation Forty | 1 – 2 oz per 1,000 sq ft

A highly concentrated blend of specific amino acids to increase plant energy, build proteins, and improve carbohydrate storage. Improves plant metabolism, especially photosynthesis, and enhances the uptake of other nutrients and spray tank additions.

Foliar-Pak® Patch Amino 5 | 3 oz per 1,000 sq ft

An an all-in-one product that provides a cultural solution to spring dead spot, summer patch, and take-all patch on golf courses. Contains five key nutrients: ammonium sulfate, manganese, phosphorous, potassium, and AminoPrecise® amino acids.

Foliar-Pak® Amperage | 3 oz per 1,000 sq ft

Sugars from natural molasses energize plants and microbes with available carbon sources that stimulate biological activity. Provides an excellent color response and aids in thatch reduction.
