

SOUTHERN BENTGRASS

Designed to deliver key nutrients and Foliar-Pak technology to improve summer stress tolerance. Growing cool season turf in the transition zone presents major challenges. Targeted amino acid formulations load stress-fighting osmolytes and antioxidants into the plant to help overcome these challenging growing environments.

Foliar-Pak® Bio 12-6-6 Promotes rapid root growth and provides long-lasting color. Helps to maximize use of foliar and soil nutrients. Provides bioactive ingredients which improve microbial activity and reduce fertilizer requirements.

Rate:
3 to 6 oz
per 1000 sq ft

Foliar-Pak® Minors Complete micro-nutrient package, formulated with specific carbon sources that increases nutrient uptake, improves the plant defense mechanisms, and improves its stress tolerance.

Rate:
1 to 3 oz
per 1000 sq ft

Foliar-Pak® 1-0-15 Unsurpassed foliar availability of potassium for proper plant water relations and cell turgor pressure. L-amino acid package allows plant to respond optimally during drought and traffic pressures.

Rate:
3 oz
per 1000 sq ft

Foliar-Pak® Calcium Formulated using three natural and modified plant metabolites specific for protecting calcium. With limited root uptake during early spring, Foliar-Pak Calcium is an important supplement for optimal performance.

Rate:
1 to 3 oz
per 1000 sq ft

Foliar-Pak® Foundation Forty A highly concentrated blend of specific amino acids to increase plant energy, build proteins and improve carbohydrate storage. Improves plant metabolism, especially photosynthesis, and enhances the uptake of other nutrients and spray tank additions.

Rate:
0.5 to 1 oz
per 1000 sq ft

Optional:

Foliar-Pak® Colonise Bio

1.5 to 3 oz per 1000 sq ft
