

# BIOWET

HydroPak® BioWet is a multi-functional, biodegradable wetting agent that works with the soil ecology while bringing a high level of performance.

## PRODUCT DESCRIPTION

- **HydroPak® BioWet** is a proprietary formulation that contains designed-for-environment sulfonic and carboxylic acids that reduce soil surface tension and improve water infiltration allowing water and nutrients to reach the root zone.
- **HydroPak® BioWet** is especially useful in areas that deal with bicarbonate and sodium issues as the anionic sulfonic and carboxylic acids work to help break down the bicarbonates and pull the sodium through the soil profile.
- **HydroPak® BioWet** contains coconut- and sugar-based compounds that work to maintain consistent moisture levels in the root zone.
- By working to improve the moisture balance in the root zone through a combination of biodegradable penetration and hydration agents, **HydroPak® BioWet** improves oxygen and microbial levels.

### GENERAL USE GUIDE

BioWet is a multi-functional wetting agent derived from DFE (designed for environment) sulfonic and carboxylic acid penetrants, and corn- and coconut-based hydration agents. BioWet is a fully biodegradable wetting agent that works with the soil ecology.

<p><b>Golf Course Turf, Athletic Fields, Lawns</b></p>	<p>Apply 4 to 6 fl oz per 1000 sq ft in at least 1 gallon of water. Irrigation soon after application may be advised to move product into the root zone. Reapplication every 30 days may be warranted in situations where hydrophobic conditions and soluble salt levels increase in the soil.</p>
<p><b>Flushing of Salts and Bicarbonate Functions</b></p>	<p>Apply 6 fl oz per 1000 sq ft in at least 1 gallon of water, and follow with a heavy irrigation cycle to move water through the soil profile past the root zone.</p>

### PRIMARY FUNCTIONING AGENT

Alkyl sulfonic acids.....	20.0%
Carboxylic acids.....	20.0%
Cocodiethanolamide .....	15.0%
D-glucitol .....	5.0%
Total Other Inert Ingredients.....	40.0%

### PRODUCT INFORMATION:

Packaging: 2 x 2.5 Gallon Case  
 Weight per Gallon: 8.87 lbs  
 pH: 5.2
