

Armament[®] KCS

90 SGN

0-0-21

GUARANTEED ANALYSIS

Soluble Potash (K ₂ O).....	21.0%
Calcium (Ca).....	10.0%
Sulfur (S).....	7.0%
7% Combined Sulfur (S)	
Magnesium (Mg).....	4.0%

Derived from: calcium sulfate, sulfate of potash, magnesium oxide

ALSO CONTAINS NON-PLANT FOOD INGREDIENT

1.0%..Copoly-[(3 carboxypropionamide) (2-(carboxymethyl)acetamide)]

SPREADER SETTINGS

These settings are recommendations only. Each user should calibrate their own spreaders for proper application. Your application may vary with ground speed and wear on your spreading equipment. Bulk density, particle size (SGN) and a change in fertilizer analysis will also vary your spreader setting. To calibrate your spreader, place the proper amount of product for 1000 square feet into the spreader and apply to your pre-measured 1000 square feet (200 feet long by 10 feet wide) and adjust the spreader setting as necessary.

Spreader	Maintenance Rates 5 lbs/1,000 sq ft
Spyker	3.5
Earthway Broadcast (all models)	13
Prizelawn MPR1 (Refer to manufacturer for other Prizelawn spreaders)	4
Lesco	16 or H
Vicon Superflo, 5 MPH	20
Andersons/Scotts SR2000/ Accupro 2000	I
Lely WFR, 5 MPH (Refer to manufacturer for other Lely spreaders)	4-II
Cyclone	3.5
Scotts R8A	I

LIMITED WARRANTY/DISCLAIMER NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes serious eye irritation.
Harmful if inhaled.
Harmful if swallowed.
Causes skin irritation.

GENERAL USE GUIDE

Armament KCS is a patent-pending fertilizer enhanced with a fully biodegradable, proprietary anionic amino acid polymer.

MAINTENANCE

Apply 4 to 5 lbs per 1000 sq ft, or 176 to 220 lbs per acre (2-2.5 kg/100 M, or 200-250 kg/Ha) as needed to address calcium and potassium needs. Water in thoroughly after application for best results. Reapply as directed by soil tests. One bag covers 9,000-11,000 sq ft or 836-1021 100/M.

Aplique 4 a 5 lbs/1000 sq ft (ft2) o 176 a 220 lbs/acre (2-2.5 kg/100 M, o 200-250 kg/Ha) según sea necesario para resolver las necesidades de calcio y potasio. Riegue a fondo después de la aplicación para obtener mejores resultados. Aplique de nuevo según los resultados del análisis del suelo (el test N-P-K).

Una bolsa cubre 9,000-11,000 sq ft (ft2) o 836-1021 M.

Net Weight: 50 lbs (22.7 kg)
