PRODUCT DESCRIPTION/BENEFITS

Foliar-Pak Colonise Bio is a highly specific blend of fifteen microorganisms, microbe food and nutrient enhancers. Colonise Bio is enhanced with Armament, AminoPrecise and Colonise technologies to target better nutrient uptake, plant resilience, rooting and turf playability.

- Contains specific bacteria to break down thatch and to increase the availability of nitrogen and nutrients.
- Specific amino acids work to help the plants create stronger roots and more chlorophyll.
- Better playability and quicker recovery due to improved nutrient uptake and cellular water retention.
