

# Zoypalum

2-5-10

Foliar-Pak® Zoypalum is an all-in-one product used to grow and maintain turf species-especially Zoysia spp. and Paspalum spp.-that require low-nitrogen inputs.

with Armament\* • AminoPrecise™

# PRODUCT DESCRIPTION/BENEFITS

Foliar-Pak Zoypalum takes the guesswork out of building a program for turf types that thrive on low-nitrogen programs. It offers the following benefits:

- Foliar-Pak Zoypalum combines the foliar nutrients most necessary for in-season turfgrass in one jug.
- Foliar-Pak Zoypalum delivers a comprehensive array of beneficial components that charge the plant and the soil.
- Foliar-Pak Zoypalum improves stress tolerance, nutrient uptake, and nutrient utilization.
- Foliar-Pak Zoypalum promotes deeper, stronger, fibrous root systems for enhanced green speeds, and quicker recovery from heavy traffic.
- Foliar-Pak Zoypalum unlocks existing tied-up soil nutrients for predictable and consistent plant response.
- Foliar-Pak Zoypalum provides a consistent controlled growth and long-lasting color.

#### **GENERAL USE GUIDE**

Use to grow and maintain plant and turf species–especially *Zoysia spp.* and *Paspalum spp.*—that require low nitrogen inputs for optimal establishment and turf vigor. It is also useful for fall feeding of plants that require higher levels of phosphorus and potassium before winter. This product is tank-mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations, a compatibility test is recommended.

in water sources and pesticide formulations, a compatibility test is recommended.	
Golf Course Sports Turf Lawns	Maintenance:  Apply 6.0 oz per 1,000 sq ft in enough water to provide sufficient coverage. Apply every 7 days. Higher rates can be used when soil nutrients are limited by reduced granular application. Can be tank mixed with other nutrients, control products, or growth regulators.
Trees and Ornamentals	Use 2 gal Foliar-Pak Zoypalum per 100 gal of water.  Shrubs and Trees:  Drench 1 gal of finished solution per 1" diameter of tree or shrub. In areas where turf is present, inject the solution into the soil.

### **GUARANTEED ANALYSIS**

Total Nitrogen (N)	2.0%
Available Phosphate (P <sub>2</sub> O <sub>5</sub> )	5.0%
Soluble Potash (K,O)	
Boron (B)	0.02%
Copper (Cu)	0.08%
0.08% Chelated Copper	
Iron (Fe)	0.25%
0.25% Chelated Iron	
Manganese (Mn)	0.25%
0.25% Chelated Manganese	
Zinc (Zn)	0.25%
0.25% Chelated Zinc	

Derived from: soy protein hydrolysate, potassium phosphate, potassium acetate, boric acid, copper EDTA, iron HEDTA, manganese EDTA, zinc EDTA

## NON PLANT FOOD INGREDIENT

Seaweed Extract 1.	
(derived from Ascophyllum nodosum (microbe food))	
Polyoxypropylene-Polyoxyethylene block copolymer . 3.2%	
Polymer
