

# AQUEOUS

HydroPak® Aqueous reduces the surface tension of water to increase penetration and addresses water quality issues.

## PRODUCT DESCRIPTION

**HydroPak® Aqueous** reduces the surface tension of water and improves the penetration of rainfall and irrigation into the root zone. Aqueous also addresses water quality issues with a built-in water conditioner. Aqueous may be used in conjunction with other soil surfactants, plant protectants or plant nutrients.

- Quicker water infiltration decreases run-off or standingwater and provides firmer playing surfaces
- Uniform soil wetting maximizes the availability of nutrientsand soil-active products
- Reduced water pH improves the performance of pH-sensitive products

## CONTAINS NON-PLANT FOOD INGREDIENT(S)

### ACTIVE INGREDIENTS

Proprietary blend of alkyl polyglucoside esters and salts of carboxylic acid .....22.90%  
Inert Ingredients & formulation aids ..... 77.10%

## PRODUCT INFORMATION:

Packaging: 2 x 2.5 Gallon Case

## DIRECTIONS FOR USE

Aqueous reduces the surface tension of water and improves the penetration of rainfall and irrigation into the root zone. Aqueous also addresses water quality issues. Always mix and apply Aqueous in accordance with label instructions.

<b>Injection</b>	Inject 32 fl oz (946 mL) of Aqueous per one acre (.40 ha) of turfgrass or ornamentals. Monitor results to determine water infiltration and adjust rate, up or down, in 2 fl oz (59 mL) per acre (.40 ha) increments, until desired level of performance is achieved.
<b>Spray Application</b>	Spray 32 fl oz (946 mL) of Aqueous in a minimum of 60 gallons (227 L) of water to treat one acre (.40 ha) of turfgrass or ornamentals.
<b>Spray Conditioner</b>	Mix at a rate of .1 to 2 quarts per 100 gallons of spray solution. Conduct a compatibility test with all tank mix partners prior to the application. Prior to using Aqueous as a water conditioner, read and follow the label directions of all tank mix partners.
<b>Application Interval</b>	Use Aqueous monthly throughout the growing season. The application interval may be adjusted as needed.
