

PERCOLATE

HydroPak® Percolate is a combination surfactant designed to manage water across a wide range of turf and soil types.

PRODUCT DESCRIPTION

HydroPak® Percolate is a soil surfactant system that improves the penetration of rainfall and irrigation into and throughout the root-zone while maintaining a soil volumetric water content that is conducive to turf grass color and quality. Percolate can be applied to golf courses, athletic fields and other sites where fine turf grass is maintained.

- Combination of surfactants make it effective across a widerange of conditions
- Reduces tension, resulting in less run-off and wasted water
- Greater soil solubility and hydration improves irrigation efficiency and turf quality

CONTAINS NON-PLANT FOOD INGREDIENT(S)

ACTIVE INGREDIENTS

Proprietary blend of oxirane, methyl-, polymer with oxirane and dioctyl sulfocuccinate
sodium.....91.05%
Inert Ingredients & Formulation Aids.....8.95%

PRODUCT INFORMATION:

Packaging: 2 x 2.5 Gallon Case

DIRECTIONS FOR USE

Percolate is a combination of surfactants designed to increase volumetric water content and improve water infiltration on golf course fairways, greens and tees as well as sports turf. Always mix and apply Percolate in accordance with label instructions.

Use Rates

Apply Percolate at the rate of 4 to 6 fl oz (148 mL) in a minimum of 1 gallon (3.79 L) of water per 1,000 sq ft (92.9 m²) of turfgrass.

Apply Percolate at the rate of 220 fl oz (6.51 L) in a minimum of 44 gallons (167 L) of water per acre (0.40 ha) of turfgrass.

Inject Percolate at a rate of 32 fl oz (0.95 L) every 7–10 days. Monitor and adjust rate until the desired level of performance is achieved.

TECHNOLOGY POWERED BY

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
