

ATHLETIC FIELD (Cool Season)

Take the guesswork out of your athletic field fertility program! From recovery and establishment of damaged areas to maintenance of well-established fields, this program provides a comprehensive set of solutions for your athletic field needs. It will cover you with a positive plant metabolic response, feed a complete set of essential nutrients, buffer the soil from undesirable components, unlock your soil's potential, and provide recovery from intense play. Moreover, it does all this with the simplicity and convenience of a two-product program, making it easy to use.

Foliar-Pak® Play-On | 10 - 15 oz per 1,000 sq ft

Play-On is an all-in-one product that provides a complete turfgrass maintenance program with the convenience of one single product.

— OR —

Foliar-Pak® Grow-In | 10 - 15 oz per 1,000 sq ft

Grow-In takes the guesswork out of building a program for turfgrass establishment. It combines the foliar nutrients most necessary for rapid turfgrass establishment into one jug.

Foliar-Pak® Armament® Concentrate | 10 - 24 oz per A or 0.25 - 0.5 oz per 1,000 sq ft

Foliar-Pak Armament Concentrate contains Armament technology, our patented, biodegradable nutrient enhancer. Armament technology keeps nutrients in solution, preventing interactions in the spray tank and improving nutrient availability.

Optional Addition:

Foliar-Pak® Foundation Forty | 0.5 - 1 oz per 1,000 sq ft

Foundation Forty is a highly concentrated blend of specific amino acids that increases plant energy, builds proteins, and improves carbohydrate storage. It also improves plant metabolism, especially photosynthesis, and enhances the uptake of other nutrients and spray tank additions.
