

ADAPT™

HydroPak® Adapt maximizes rainwater and irrigation absorption while prolonging hydration.

PRODUCT DESCRIPTION

HydroPak® Adapt™ is an infiltration and hydration surfactant designed to efficiently manage water. Adapt's specialized formula makes it an excellent choice for those looking to find a balance between efficacy and cost-effectiveness. Quicker water infiltration decreases runoff or standing water and provides firmer playing surfaces.

- Maximizes absorption of rainwater and irrigation
- Prolongs hydration, conserving water, and minimizing labor needs
- Economical infiltration and hydration surfactant—even on large areas
- Variable rates to provide adequate moisture when needed

CONTAINS NON-PLANT FOOD INGREDIENT(S)

ACTIVE INGREDIENTS

Alkoxylated Polyols	90.0%
Inert Ingredients	10.0%

PRODUCT INFORMATION:

Packaging: 2 x 2.5 Gallon Case

DIRECTIONS FOR USE

Adapt is formulated to address hydrophobicity and water acceptance in soils during drought periods. Adapt increases the infiltration of water into the soil and improves the length of hydration. Adapt should be applied as a preventative water management strategy. Always mix and apply Adapt in accordance with label instructions.

Spray Application	Apply Adapt at a rate of 2-8 fluid ounces (59-237 mL) in a minimum of 1 gallon (3.79 L) of water per 1,000 ft ² (92.9 m ²). Apply Adapt at a rate of 87-349 fluid ounces (5.2 L) in a minimum of 44 gallons (167 L) of water per acre (0.40 ha).
Irrigation Injection	Inject Adapt at a rate of 32 ounces (1 L) per acre (0.40 ha).
Drench	For ornamental trees, plantings, and container pots, dilute 8-16 fluid ounces of Adapt in 100 gallons (0.0625%-0.125% v/v) of water.
Seeding and Sprigging	Apply Adapt at a rate of 4 ounces (119 ml) in a minimum of 1 gallon (3.79 L) of water per 1,000 ft ² (92.9 m ²) after seeding or sprigging. Irrigate directly after application with a volume of water to sufficiently wet the seeded surface to a 1/2-inch (13 mm) depth. Volume of water needed may vary with soil type.

Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on the label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on the label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
